PERSONAL STATEMENT

PhD graduate from Trinity College Dublin with extensive policy experience at the European Central Bank and Central Bank of Ireland. My research focuses on the transmission of monetary policy, financial stability, and the macroeconomic implications of artificial intelligence. I am committed to delivering high-quality research and teaching, leveraging my wide-ranging background to contribute to the academic environment at Trinity College Dublin.

EDUCATION

PhD in Economics 2017 – 2024
Trinity College Dublin Thesis: Essays in Small Open Economies and Banking
Award: Runner-up, Barrington Prize for best paper by a young researcher (2019).

MSc in Economics 2013 – 2014
Trinity College Dublin

BComm (with Economics) 2010 – 2013
University College Dublin

RESEARCH

TEACHING EXPERIENCE

Teaching Assistant
Trinity College Dublin

Sep 2014 – Oct 2015

- Delivered Mathematics and Statistics tutorials to undergraduate students.
- Assisted Prof. Philip Lane with research on macroeconomic and international topics.

PROFESSIONAL EXPERIENCE

Economist / Financial Stability Expert
European Central Bank (ESRB Secretariat), Frankfurt

Mar 2023 – Present

- Central role in the production of quarterly financial stability risk assessments for the EU. These are presented to the ESRB General Board, chaired by President Lagarde.
- Contribute research on key risk topics, as identified by the General Board and Financial Stability Committee of the ECB.

Senior Economist
Central Bank of Ireland

Jan 2021 – Present (On secondment)

- **Incoming Role (Feb 2026):** Lead, Macroeconomic Forecasting Team (Irish Economic Analysis Division).
- **Previous Role:** Led the development of the Central Bank’s macroprudential stress testing model, integrating macroeconomic scenarios with bank-level outcomes.
- Contributed to the ECB workstream on macroprudential stress testing.

Team Lead, IRB Team (Stress Testing and Economic Capital)
Allied Irish Banks

Oct 2018 – Jan 2021

- Managed a team of 12 analysts responsible for the development and validation of Corporate IRB PD and AIB groups full suite of stress testing and economic capital models.

Economist
Central Bank of Ireland

May 2017 – Oct 2018

- Contributed to macroeconomic forecasting and projection exercises; undertook empirical work on small open economy topics (exchange rate pass-through, consumption dynamics).
- Represented the Central Bank on the ECB Working Group on Econometric Modelling (WGEM).

Associate Economist
Irish Economic Analysis and Banking Supervision, Central Bank of Ireland

Oct 2015 – May 2017

- Provided research support for macroeconomic forecasting and policy analysis, including data preparation, econometric estimation and contributions to Central Bank publications.
- Conducted IRB model investigations for several systemically important Irish banks, assessing model robustness and regulatory compliance for the SSM.

Full-time Research and Teaching Assistant
Trinity College Dublin

Sep 2014 – Oct 2015

- Assisted Prof. Philip Lane with research on macroeconomic and international topics.
- Delivered Mathematics and Statistics tutorials to undergraduate students.

TECHNICAL SKILLS

Methods: Macro-econometrics (VAR/GVAR), Natural Language Processing (BERT/LLMs), Structural modelling (DSGE).

Software: MATLAB, R, Python, EViews, SQL, LaTeX.
